

GOKUL KRISHNA M

Full Stack MERN Developer

📍 Chennai, India ✉️ gokuldinesh32@gmail.com ☎️ +91 8925655423

🌐 [Portfolio](#) 🔗 [LinkedIn](#) 🐙 [GitHub](#)

PROFESSIONAL SUMMARY

Results-Driven Full Stack MERN Developer experienced in architecting and deploying scalable, high-performance web applications. Expertise across the complete development lifecycle utilizing MongoDB, Express.js, React.js, and Node.js. Proven track record of designing complex RESTful APIs, enforcing robust JWT authentication, and crafting responsive, mobile-first UIs. Adept at establishing automated cloud deployment pipelines on AWS (EC2, CloudFront), Vercel, and Render to reduce delivery times and maintain highly available, production-ready applications.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript (ES6+), HTML5, CSS3, SCSS, SQL, Java 17
- **Frontend Technologies:** React.js 18, React Router, Vite, Context API, Axios
- **Backend & APIs:** Node.js, Express.js, RESTful APIs, JSON Web Tokens (JWT)
- **Databases:** MongoDB (Atlas), Mongoose ODM, MySQL 8.0
- **Cloud & DevOps:** Amazon Web Services (AWS EC2, CloudFront), Nginx, Vercel, Render, Ubuntu Linux
- **Tools & Integrations:** Git, GitHub, Postman, VS Code, Cloudinary API

FEATURED PROJECTS

GK's Fitness Shop - Production E-Commerce Platform

[🔗 Live Demo](#)[Frontend](#)[Backend](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB Atlas, Razorpay API, AWS (EC2, CloudFront), Nginx

- Developed a responsive, mobile-first e-commerce platform tailored for fitness enthusiasts, leveraging React.js for optimized client-side rendering.
- Engineered secure, real-time inventory management logic in MongoDB, ensuring consistent database state during concurrent payment confirmations and order cancellations.
- Integrated the Razorpay API with cryptographic signature verification for secure checkout, alongside a custom OTP-based user authentication flow.
- Architected a scalable deployment pipeline by hosting the Node.js/Express backend on AWS EC2 with an Nginx reverse proxy, and globally distributing the frontend via AWS CloudFront CDN.

Fit-Track Pro Gym - Full Stack Workout Tracker

[🔗 Live Demo](#)[Frontend](#)[Backend](#)

Tech Stack: React.js, Vite, SCSS, Node.js, Express.js, JWT, Vercel, Render

- Built a dynamic workout tracking application from scratch featuring an interactive React dashboard for athletes to log daily routines and monitor progress.
- Designed a fully responsive, mobile-first UI utilizing custom SCSS and glassmorphism principles to ensure seamless cross-device compatibility.
- Developed robust RESTful CRUD APIs to manage exercise data and implemented stateless JWT-based authorization to secure user sessions and sensitive endpoints.

Inventory Management System - Full Stack Application

[🔗 Live Demo](#)[Frontend](#)[Backend](#)

Tech Stack: React.js (Vite), React Router, Axios, Node.js, Express.js, MongoDB Atlas

- Engineered an end-to-end inventory control web application, delivering a streamlined user experience for comprehensive stock management.
- Developed scalable backend CRUD RESTful APIs utilizing Node.js and Express.js to process real-time inventory item updates stored in MongoDB Atlas.
- Maintained a clean, decoupled client-server architecture, utilizing Axios for asynchronous API communication and streamlining deployment via Vercel and Render.

EDUCATION

Dr. M.G.R. Educational and Research Institute, Chennai

Graduated: 2024

Bachelor of Technology (B.Tech) - Computer Science and Engineering
