

GOKUL KRISHNA M

Full Stack MERN Developer

📍 Chennai, India ✉ gokuldinesh32@gmail.com ☎ +91 8925655423

🌐 [Portfolio](#) 🔗 [LinkedIn](#) 🐙 [GitHub](#)

PROFESSIONAL SUMMARY

Results-driven Full Stack MERN Developer experienced in designing, developing, and deploying production-ready web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in building scalable RESTful APIs, implementing JWT-based authentication and authorization, developing responsive and mobile-first user interfaces, integrating secure payment gateways, and managing databases. Hands-on experience with AWS EC2, CloudFront, Nginx, Vercel, Render, Git, GitHub, Postman, and Linux-based deployment environments.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript (ES6+), HTML5, CSS3, SCSS, SQL, Java 17
- **Frontend Technologies:** React.js 18, React Router, Vite, Context API, Axios
- **Backend & APIs:** Node.js, Express.js, RESTful APIs, JSON Web Tokens (JWT)
- **Databases:** MongoDB (Atlas), Mongoose ODM, MySQL 8.0
- **Cloud & DevOps:** Amazon Web Services (AWS EC2, CloudFront), Nginx, Vercel, Render, Ubuntu Linux
- **Tools & Integrations:** Git, GitHub, Postman, VS Code, Cloudinary API

FEATURED PROJECTS

GK's Fitness Shop - Production E-Commerce Platform

[🔗 Live Demo](#)[Frontend](#)[Backend](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB Atlas, Razorpay API, AWS EC2, CloudFront, Nginx

- Architected and deployed a full-stack MERN e-commerce platform for fitness products featuring a highly responsive, mobile-first React.js interface.
- Engineered highly scalable RESTful backend services using Node.js and Express.js to orchestrate product, inventory, cart, order, user, and payment workflows.
- Orchestrated secure, real-time inventory and order-management logic within MongoDB to maintain a consistent database state during concurrent payment confirmations and order cancellations.
- Integrated the Razorpay payment gateway with strict cryptographic signature verification to secure online payment transactions.
- Implemented robust custom OTP-based user authentication and secured API workflows for user and order operations.
- Architected a scalable deployment pipeline by hosting the Node.js/Express.js backend on AWS EC2 with an Nginx reverse proxy, and globally distributing the React.js frontend via AWS CloudFront CDN.

Fit-Track Pro Gym - Full Stack Workout Tracker

[🔗 Live Demo](#)[Frontend](#)[Backend](#)

Tech Stack: React.js, Vite, SCSS, Node.js, Express.js, JWT, Vercel, Render

- Built a dynamic full-stack workout tracking application featuring an interactive React.js dashboard for recording daily workouts and monitoring fitness progress.
- Designed a fully responsive, mobile-first UI using React.js, Vite, and custom SCSS, implementing premium glassmorphism-based design principles.
- Developed robust RESTful CRUD APIs utilizing Node.js and Express.js for seamless exercise and workout data management.
- Enforced stateless JWT-based authentication and authorization architectures to secure active user sessions and protect sensitive API endpoints.
- Deployed the application across Vercel and Render, successfully maintaining separated and highly available frontend and backend services.

Inventory Management System - Full Stack Application

[🔗 Live Demo](#)[Frontend](#)[Backend](#)

Tech Stack: React.js, Vite, React Router, Axios, Node.js, Express.js, MongoDB Atlas

- Engineered an end-to-end full-stack inventory control web application, delivering a streamlined user experience for comprehensive stock management.
- Developed scalable backend CRUD RESTful APIs utilizing Node.js and Express.js to process and manage real-time inventory updates stored in MongoDB Atlas.
- Maintained a clean, decoupled client-server architecture utilizing Axios for asynchronous communication between the React.js frontend and Express.js backend.
- Constructed responsive user interfaces using React.js, Vite, and React Router to optimize efficient inventory management workflows.
- Deployed frontend and backend services efficiently using Vercel and Render while maintaining a structured full-stack deployment pipeline.

EDUCATION

Dr. M.G.R. Educational and Research Institute, Chennai

Graduated: 2024

Bachelor of Technology (B.Tech) - Computer Science and Engineering
